

# TECHNOLOGY STUDENT ASSOCIATION PLAN OF WORK LOG

Date	Task	Time involved	Team member responsible (student initials)	Comments
1. February-March	Redesign of Planning and Home pages	Two weeks	GL, ED	Redesigned the page layout and buttons to make them pop up more and be more visually appealing.
2. March	Final design of Geothermal Energy page	Four days	ED	We used the solar page as a standard for the other home installment pages. After that we messed with several of the visual aspects of the pages to fit the topic of geothermal.
3. March	Creation and design of Insulation page	Four days	GL	Similarly to the geothermal page, we used the solar page as a standard and changed several of the visual aspects of the pages to suit the topic of insulation.
4. March	Final designs of additional and lifestyle pages	Two days	GL, ED	At this point we were crunched for time. However, we still had to finish two additional pages. In an effort to continue a level of aesthetic quality while simplifying it to make it easy to implement.
5. March	Tidying up and cleaning up any problems	One day	GL, ED	Aside from documentation, we had most of the website completed by now. As such, we went back to review the website and fixed up any issues and concerns that we could.
6. March	About us page and documentation	One day	GL, ED	One person organized the resources that we relied on to put on documentation and prepared to insert it in the documentation. Meanwhile, the other person filled out the required forms. After that, we would insert it all together.
